

PRODUCT DESCRIPTION

ARDINA DSG Performance Fluid is the latest all-round dual clutch transmission (DCT/DSG) fluid, developed with high grade synthetic base oils in combination with high-tech additives that results in a high and stable viscosity index, a low pour point, excellent compatibility with synthetic seals, great stability and protection against oxidation, corrosion, wear and foam and an outstanding clutch reliability and performance.

This DSG/DCT Fluid is specifically applicable to transmissions that use the same fluid for the dual clutch, synchronizer, gear set and hydraulic control system and because of the high viscosity index it can be used in extreme cold conditions as well. Suitable for use in 6,7 and 8 speed DCT systems such as VAG systems (Volkswagen, Audi, Seat, Skoda), BMW drivelogic, Chrysler Powershift, Geely, Great Wall, Getrag, Ford/Nissan Powershift, Mitsubishi TC-SST, Peugeot/Citroën DCS, Volvo Powershift, Porsche PDK and ZF.
